

WASH YOUR HANDS!
WASH YOUR HANDS!
WASH YOUR HANDS!

Team Turnip,

With the recent outbreaks of *Hepatitis A* in San Diego and Los Angeles, we need to be proactive. I remind you all to wash your hands diligently after things like going to the bathroom and taking out the trash. The virus is spread through infected food and water that has been tainted with human waste...that's right, **POOP!**

Tell your coworkers, tell your boss...

WASH YOUR HANDS!

Thank you!

P.S. – **WASH YOUR HANDS**
